2040
INSPIRE CHANGE

A PROJECT FOR THE UPLIFTMENT OF MARGINALIZED COMMUNITIES

**MANAPPAT
FOUNDATION**
Empower. Together.

Manappatt Foundation is an initiative to further the cause of the underprivileged by applying the most appropriate interventions in areas of Healthcare, Education, Economic Empowerment and Socio-cultural Reforms.

Manappatt Foundation is a team of dedicated and committed professionals and social workers who have come together to further the cause of the underprivileged. Together with a combined experience of over two decades in the humanitarian sector, we are now poised to apply our knowledge and experience in the development of the marginalized.

Vision 2040 is a result of the culmination of ideas, vision and the commitment of this team.

History: Founded in 1993, Manappatt Foundation has long focused on systematic approaches to all evicting poverty with faith inspired actions. Our genesis began with the introduction of welfare programs across Kerala and gradually spread itself over the years.

In 2015 Our Chairman and Managing Director of the Manappatt Group, Mr. Ameer Ahmad, who is an alumnus of the Aligarh Muslim University, met some individuals and discussed the issues of development and the need to reach out to the poorest of the poor. It was based on these discussions that the idea of Vision 2040 was conceptualized and drafted by a group of professionals and laid out for action. Thus Vision 2040 was defined.

A New Beginning: This is the beginning of a new phase in the journey of Manappatt Foundation. From being a helping hand to the socially challenged, it has transformed itself to an empowerment agent.

We are revisiting our strategy and approaches in the year 2015 and envisaging a 25 year model to achieve some astounding feats by 2040.

Our newest area of intervention is in the North Indian state of UttarPradesh, which has the highest population with some of the most alarming statistics of their conditions. We dream of making a dent in this situation by our humble efforts and bringing about a holistic change in the life of marginalized communities.

Manappatt Group: The Manappatt Group is a vibrant, versatile business house with an unrivaled portfolio of interests and investments across the Sultanate of Oman, United Kingdom, United Arab Emirates, India. Our subsidiary companies and associates are market leaders in a diverse range of industries and sectors, but are united by a commitment to enhancing the quality of life in the areas we do business and achieving exceptional standards of performance and customers service.

Making a difference: We invest in ventures and activities that create jobs, bring economic stability, develop infrastructure, conserve the environment and serve the community in the regions in which we operate; enriching the lives of our customers, our employees, our suppliers and local citizens. Manappatt Foundation is a manifestation of our CSR and commitment to serve humanity.

Goal 2040: To achieve significant advancement in the educational, economic and social status of the marginalized communities of Uttar Pradesh.

Mission: To deliver the most appropriate interventions in the field of Education, Economic Empowerment and Social Sphere of the underprivileged in order to enhance their status within the society.

OUR MISSION

WHY UTTAR PRADESH?

- ◆ Highest population at 200 million, yet worst indicators in terms of economic development.
- ◆ High political representation, yet no positive outcome.
- ◆ Government efforts for the downtrodden have not been able to reach out to the masses and translate into improved statistics.
- ◆ Uttar Pradesh remains at the bottom of the list with close to 1/3rd of the population living under the poverty line.
- ◆ The disparities in Uttar Pradesh are at the highest in terms of both income and community level differences.
- ◆ Uttar Pradesh also presents the greatest potential in terms of growth and development with its resources and vibrant atmosphere for investment, industrialization and economic development.

PROJECTS

COMPLETED
